

Why

SANI-BAG+[®]

SOLVES A BIG PROBLEM FOR YOUR CUSTOMERS

- Most Sanitary, environmentally-friendly, commode/bedpan lining solution available.
- The ONLY lining solution containing our NASA-developed gelling agent, complete with a proprietary blend of natural enzymes, decay catalysts and deodorizing ingredients. Our solution traps, encapsulates, deodorizes and breaks down human waste.
- The ONLY documented 99.9% effective barrier to the spread of disease and microbes including E. coli, C. diff and MRSA.
- The ONLY lining solution that contains an odor neutralizing agent.
- The ONLY lining solution that contains a decay catalyst in the form of natural enzymes to break down waste faster—best for the environment.
- The only biodegradable, environmentally-friendly product available—from packaging to post-use.
- Easy—customers/caregivers use it, tie it, toss it.
